Satish Kumar Draksharapu

Team Lead | Full Stack .NET Developer | Expert in Microsoft Technologies, SQL Optimization, and Driving Scalable Application Development
Greater Chicago Area

Summary

I am a Full stack .net developer with over 10 years of IT experience in designing, developing, and deploying scalable applications using Microsoft technologies. I am currently working as a Technical Lead in Techwave.

Skilled in .NET Core, Web API, and SQL, with a focus on code optimization and improving system performance. Passionate about utilizing modern frameworks like AngularJS and Bootstrap to create user-friendly interfaces.

I graduated with a Master's Degree in Computer Applications from Andhra University and enjoy tackling complex technical challenges.

Experience

Techwave

3 years 1 month

Team Lead

August 2025 - Present (1 year)

Hyderabad, Telangana, India

Lead end-to-end design, development, and deployment of scalable applications using .NET, Azure, and modern architectural patterns.

Drive technical excellence through coding standards, code reviews, design decisions, performance optimization, and secure development practices.

Manage and mentor cross-functional teams, fostering Agile culture, skill development, and knowledge sharing for consistent delivery.

Collaborate with stakeholders to translate business requirements into technical solutions, ensuring timely delivery with CI/CD & DevOps practices.

Spearhead cloud migration, API integrations, and enterprise solutions with Azure services (APIM, Logic Apps, Functions, Service Bus, Entra ID).

Technical Lead

July 2023 - July 2025 (2 years 1 month)

Hyderabad, Telangana, India

Lead the design, development, and deployment of enterprise applications using .NET, C#, and Microsoft Azure.

Implemented WhatsApp integration using Whapi cloud APIs and webhooks.

Develop scalable solutions by utilizing Azure Functions and Azure Logic Apps, optimised APIs with new configuration solutions.

Work closely with cross-functional teams to deliver high-quality results that meet client's requirements.

Drive the implementation of DevOps practices to optimize CI/CD pipelines and enhance development efficiency.

Mentor and guide a team of developers, ensuring compliance with coding standards and best practices.

Improve application architecture and streamline processes within QA and prod environments.

ValueMomentum

Senior Software Engineer

October 2022 - July 2023 (10 months)

Hyderabad, Telangana, India

Contributed to the development of innovative software solutions for the insurance and healthcare industries.

Introduced the NUnit framework to streamline unit testing within the system.

Enhanced existing applications by optimizing backend processes with .NET Core and C#.

Collaborated with the product team to design and implement new features that align with business objectives.

Improved front-end interfaces using modern frameworks, enhancing user experience and accessibility.

Softblobs Private Limited

Senior Software Engineer

May 2021 - October 2022 (1 year 6 months)

Hyderabad, Telangana, India

Led a team of 5 engineers in the development and enhancement of the legal client management product, "IPro."

Designed and implemented new features using .NET Core, Angular, and ASP.NET MVC to improve functionality.

Applied multithreading techniques to enhance application performance and reliability.

Developed RESTful APIs with ASP.NET Web API to ensure smooth integrations.

Played a key role in optimizing databases using Microsoft SQL Server.

RESOURCE INTEGRATION SOLUTIONS ENTERPRISE PRIVATE LIMITED

Senior Software Engineer

April 2020 - May 2021 (1 year 2 months)

Visakhapatnam, Andhra Pradesh

Managed the development and enhancement of data-centric applications for the ETL and analysis domain.

Optimized complex SQL queries to ensure high performance of data processing tasks.

Lonrix Ltd

2 years 9 months

Senior Software Engineer

February 2018 - April 2020 (2 years 3 months)

Visakhapatnam

Created scalable solutions and workflows to streamline operations for multiple applications.

Worked closely with clients to gather requirements and deliver the expectations.

Onsite Engineer

August 2017 - February 2018 (7 months)

Waikato, New Zealand

Acted as the primary onsite point of contact, ensuring smooth communication between the base team and clients for a period of six months.

Provided technical support and implemented updates to client systems.

Delivered a seamless experience during the term by ensuring high-quality standards and adherence to SLAs.

ANAX Info Services

3 years 2 months

Junior Software Developer

February 2016 - August 2017 (1 year 7 months)

Built and maintained dynamic web applications using ASP.NET and SQL Server.

Participated in the complete software development lifecycle, including requirement analysis, coding, and testing.

Delivered bug-free applications by performing unit testing and debugging.

Designer

July 2014 - February 2016 (1 year 8 months)

Designed and developed creative assets, logos for client projects, ensuring alignment with brand guidelines.

Collaborated with clients and stakeholders to meet design objectives.

Gained valuable experience in project coordination and stakeholder communication.

Education

Andhra University

Master's Degree, Master of Computer Applications · (2014 - 2017)

Andhra University

Bachelor of Science (B.Sc.), Maths, Electronics and Computers · (2011 - 2014)

Narayana Junior College

Intermediate, Maths Physics Chemistry · (2009 - 2011)
